Tricks and treats are hidden all around.  
Somewhere freezing cold is where the first can be found.

Sweet treats are tasty as can be.  
Follow this clue to a cupboard with me.

On Halloween night the spookies come out.  
Your next treat is in a coat no doubt.

Be careful a witch doesn't turn you into a frog or a gofer.  
Find the next treat somewhere in the sofa.

Casting spells is something that wizards can do.  
They learn these from a book that is blue.

Some ghosts are quiet, others make lots of noise.  
The next clue hides with your favourite toys.

Vampires are thirsty, your blood is red.  
You'll find the next treat somewhere near your bed.

Witches cackle as they fly on their broom.  
You'll find the next treat in the bathroom.

Too many sweets are bad for your health  
Look for your next surprise up on a shelf

Carving pumpkins can be fun.  
Look in a shoe and you'll be done.
